

Find Your Next Step

*Your journey to financial
wellness starts here.*

**You're not alone.
Help is available through our
partnership with GreenPath.**

The GreenPath Financial Wellness program provides free assistance to resolve your financial concerns.

GreenPath's financial experts will:

- Explore strategies to help you eliminate debt and achieve your financial goals.
- Develop a monthly spending plan based on your unique situation.
- Review your credit report with you to understand how to read your credit report, manage your credit score, and dispute inaccurate information.
- See if a Debt Management Plan (DMP) makes sense. DMPs may help stop collection calls, lower interest rates, and waive late fees.
- Discuss all of your financial options, including the benefits and drawbacks of each.
- Develop a customized action plan for getting back on track.

Take the first step.
